

## *Waterjet Operator 1st, 2nd, and 3rd shifts available*

### *Job Description*

Tricor is currently seeking skilled waterjet operators. This position is responsible for loading, operating, unloading and deburring parts. The operator will also inspect the parts they make and perform other duties and various tasks related to operation, housekeeping, assisting with preventative maintenance, and other duties as assigned.

### *Summary*

Responsible for setup and operation of CNC waterjets, including pulling correct input material, loading material on machines, inspecting parts during and after cutting, unloading parts, deburring parts, qualifying and proper disposal of scrap, completing all necessary paperwork, and part delivery.

### *Key Responsibilities*

- Operate overhead crane to load/unload material on machine
- Load program, set home, ensure program fits on input
- Measure and inspect parts during & after processing
- Deburr, clean, and mark parts with appropriate information

### *Requirements*

- Use appropriate PPE & follow safety procedures
- Attention to detail
- Good communication skills
- Ability to multi-task
- Ability to think through a process and work with minimal direction

### *Experience*

- Experience with overhead crane
- Forklift experience
- Strong math skills

- Ability to read measuring tools (i.e. tape measure, calipers, etc.)
- Experience with CNC cutting machines a plus
