Who We Are

TRICOR INDUSTRIAL is a globally recognized group of companies focused on distribution of mill products, equipment manufacturing and repair of titanium, zirconium, tantalum, high nickel alloys and stainless steels. Our products are shipped worldwide to support the industries that utilize the materials that we specialize in.

Service Center

Tricor Metals has one of the world's most complete inventories of titanium, titanium alloy, zirconium 702 and tantalum mill products in ASTM and AMS grades including sheet, plate, pipe, forgings, fittings, bar, billet, wire, tubing, and fasteners. We offer advanced processing including water jet cutting, saw cutting, and shearing. We provide custom parts manufacturing and just-in-time inventory for 'blanket' order processing.

Fabricated Products Manufacturing Capabilities

Tricor Metals has two fabrication facilities strategically located in the United States — Our headquarters located in Wooster, OH sixty miles south of Cleveland, OH and another in Conroe, TX 40 miles north of Houston.

Our in house design and fabrication capabilities are:

- **Diameter - 15 Feet**
- **Length - 150 Feet**
- **Weight - 100,000 Lbs**

Tricor Metals has a multidisciplinary engineering staff that is capable of thermal and mechanical design of heat exchangers, pressure vessels, tanks, columns, piping system and accessory equipment to the following design codes.

Design Codes:

- ASME Section VIII Division 1
- ASME Section VIII Division 2
- CRN (Canadian Registration)
- PED (Pressure Equipment Directive)
- TEMA
- API
- AWS

Tricor Metals utilizes the most updated computer software in the design of the equipment it manufactures listed below:

- PV Elite
- Autocad
- HTRI
- Aspen Heat Exchanger Design and Rating

In house welding procedures include:

- FCAW (Flux Core Arc Welding)
- SMAW (Submerged Arc Welding)
- GMAW (MIG)
- PAW (Plasma Arc Welding)
- GTAW (TIG)
- KTig

Common testing and inspection procedures available at **Tricor Metals** are:

- Material Traceability
- Visual Inspection
- PMI
- Dimensional Inspection
- Dye Penetrant Testing
- Ultrasonic Testing
- Mag Particle Testing
- Eddy Current Testing
- X-Ray Testing
- Helium Leak Testing
- Hydrostatic Testing

Tricor Metals lends its materials and fabrication expertise to many globally recognized technology and OEM equipment suppliers in manufacturing their products in the materials that we specialize in. Some of the products that we fabricate regularly are listed below:

- Dip Pipes
- Gas Spargers
- Spray Nozzles
- Acid Feed Lances
- Mixing Pipes
- Static Mixers
- Fan Wheels
- Filter Housings
- Venturi Mixers
- Liquid Distributors
- Column Internals
- Nozzle Liners
- Coils
- Augers
- Agitators
- Autoclave Internals

Site / Shop Services

Repair / Alteration / Field Builds

Tricor Metals offers a full range of shop and field repair, alteration and fabrication services. Tricor Metals has a dedicated field crew ready to perform those critical tasks, 24 hours a day, 7 days a week regardless of the original manufacturer. Our crew is available for projects anywhere in the world.

Services commonly offered:

- Repairs / Alterations of Solid, Lined and Explosion Clad Pressure Vessels
- Repair / Alterations of Mining Autoclaves
- Heat Exchanger Cleaning / Refurbishment
- Field Fabricated Tanks
- Field Welding of Piping

Plate & Frame Heat Exchangers

Tricor Metals designs and builds bolted and gasketed plate heat exchangers (PHEs) for many industries including Chemical, Refinery, Power Generation, Metal Processing, Lube Oil Cooling, and many more.

We stock components including SS316 and Titanium plates for speedy PHE build and fulfillment. Our goal is to be the most responsive PHE supplier for you.

We offer spare parts and refurbishing services for nearly all brands of PHEs. Contact us to learn more our plate and frame heat exchanger offerings.

Plate Materials:

- SS316
- SS304
- Titanium
- 254SMO
- Others Upon Request

Gasket Materials:

- NBR
- EPDM
- Viton

Industries Served:

- Power Generation
- Food / Dairy
- Hydraulic Oil Coolers
- Chemical
- HVAC
- Pulp & Paper
- Pharmaceutical
- Refinery
- Off-Shore Technology
- Water Purification
- Food & Beverage Industry
- Water Treatment
